

Developer Jokes

1. Why do programmers hate nature?

Too many bugs!

2. How do programmers fix a broken light?

They don't, they just find a workaround in the dark.

3. Why was the JavaScript developer sad?

Because he didn't know how to "undefined" his feelings.

4. Why do Java developers wear glasses?

Because they can't C#.

5. What's a developer's favorite hangout place?

The Foo Bar.

6. How do you praise a developer?

"Wow, you're really good at Googling!"

7. Why was the developer broke?

Because he used up all his cache.

8. Why do programmers prefer iOS over Android?

Because on Android, there are too many fragments.

9. What's a programmer's favorite workout?

Squashing bugs and pushing commits.

10. Why do developers avoid manual labor?

They can't lift anything because they only deal with lightweight frameworks!
